

VISION

Thriving connected landscapes where there is a positive future for all indigenous flora and fauna across our region

MISSION

To bring the community together to protect and enhance our environment and its unique biodiversity

VALUES

Nature-centered/ Action-oriented/ Knowledge-based/
Respectful/ Connected and collaborative/ Future-focused

PRIORITIES

1

STRONG CONNECTED COMMUNITY

2

THRIVING CONNECTED ENVIRONMENT

3

HEALTHY CONNECTED ORGANISATION

STRATEGIES

Create opportunities to grow the membership, particularly through activities with young land carers

Seek opportunities to learn from and collaborate with Traditional Owners

Consider meaningful ways of keeping Landcare 'elders' engaged in the continued works of the Network

Develop an educational portfolio which brings members and our networks together for knowledge-sharing on best-practice environmental stewardship

Protect and enhance our unique biodiversity by actively connecting habitats on land and in water using indigenous flora

Support resilient climate-smart agriculture and production on land and water through knowledge-sharing and projects with real impact

Protect and enhance the future of threatened species in our region through evidence-based remedial action

Actively connect with funding bodies to ensure ongoing financial support for staff, volunteers and Network initiatives

Seek connections with regional businesses, government and NFP organisations to promote nature-centred collaborations which can lead to greater wealth and well-being for the region

Further strengthen our connections with Landcare networks and other NRM organisations across Victoria to exchange practice-based knowledge and collaborate on regional priorities
